**Wednesday, August 14, 2019**—First day of school!

See weekly e-blast for further details.

## Thank you!

**Thank you, 6th grade parents, for a wonderful year! It has been a joy teaching all of the students, and we wish you a safe, enjoyable summer.**

## Science

It has been my pleasure to teach your child in science this year. We have covered astronomy, plate tectonics, oceanography, energy, and the immune system. Good luck in seventh grade!

—Mrs. Gerber

## History

We have come to an end with our final history unit. It has been a great year of content, and the kids seemed to enjoy it. Next week we will be watching *A Tale of Two Cities* that is part of our curriculum. If you have not turned in the permission slip yet, please do so as soon as possible.

## Notes

Please retrieve all of your child's **meds** from the office no later than Thursday, May 30.

**Lost & Found** items left after May 31 will be donated to charity.

Check the school website throughout the summer for **class rosters** and other information.
